IEEE *Xplore* for Corporate Workgroups
IEEE *Xplore*® Digital Library Subscription Option

A cost-effective research solution for small companies

Advance innovation with the IEEE *Xplore* digital library subscription designed for smaller companies with a team of researchers. IEEE *Xplore* for Corporate Workgroups provides access to technology's most trusted research—with a pricing structure that fits the needs and budget of your company.

IEEE *Xplore* for Corporate Workgroups delivers key benefits for your research team:

- **Drive new ideas,** designs, and applications with cutting-edge research
- **Develop better solutions faster** by understanding the technology landscape
- **Stay ahead of new advancements** and benchmark competitor research
- **Increase productivity** by reviewing previous research so you don't reinvent the wheel
- **Accelerate innovation** with convenient access to proven research all in one place
- **Share vital information** with any subscriber in the workgroup with a shared online file cabinet

Collaborate with the IEEE *Xplore* file cabinet

See what your colleagues are reading and share downloaded documents by storing them in a shared online file cabinet. Once each unique document is in the file cabinet, any subscriber in the workgroup can access it without using another download—making it easy to collaborate and fuel innovation.

Note: The shared file cabinet stores a maximum of 10,000 documents

IEEE *Xplore* for Corporate Workgroups: Delivered through the IEEE *Xplore*® Digital Library

Access respected technology research that generates results

IEEE *Xplore* for Corporate Workgroups includes **top-ranked journals and technology research that is cited in patents three times more often than the nearest competitor.** With more than 3 million full-text articles and papers, IEEE *Xplore* is your gateway to 30% of the world's current literature in electrical engineering, electronics, and computer science.

Find relevant research faster with powerful search tools

IEEE *Xplore* combines an easy-to-use interface with powerful search tools that make finding relevant research faster and more streamlined.

Search: Intelligent features such as convenient type-ahead, a functional search breadcrumb trail, and a "Refine/Expand Results" module let you modify and find results easier than ever before.

Personalize: You can also personalize IEEE *Xplore* to create targeted saved searches and receive e-mail alerts or RSS feeds of new content updates.

IEEE *Xplore* also provides:

- Basic, Advanced & Command search options
- INSPEC® abstract/citation and bibliographic records
- Persistent links (OPAC)
- Weekly content updates

Get the latest research in a wide range of technologies:

- Aerospace and Defense
- Biometrics
- Computer Hardware and Software
- Electronics
- Medical Devices
- Nanotechnology
- Optics
- Power Engineering
- Robotics
- Semiconductors
- Telecommunications
- Wireless Technology and more!
